## **STATRAD FORGES NEW PARTNERSHIP WITH SOUTH COAST RADIOLOGICAL MEDICAL GROUP**

**SAN DIEGO – (June 21, 2011)** — StatRad, a premier teleradiology provider, is excited to announce its new partnership with South Coast Radiological Medical Group. The partnership highlights an industry trend among radiology groups whom are seeking highly responsive providers that focus specifically on teleradiology. “By tailoring our services to support the unique needs of radiology groups, we’re able to deliver bigger advantages that improve efficiencies and enhance patient care,” said Joe Moock, StatRad’s CEO. With a history of providing faster response times and more accurate readings than the competition, StatRad is able to help its newest partner maintain its exceptional standard of care.

“We’re ecstatic to switch to StatRad,” said Dr. Richard Wasley from South Coast Radiological Medical Group. With StatRad’s superior technology, “we anticipate a smooth transition and look forward to a long relationship.” South Coast Radiological Medical Group provides comprehensive diagnostic and interventional imaging services throughout Orange County, CA. For more than 50 years, the group has built a practice dedicated to improving patient care and delivering accurate and timely diagnoses to referring physicians. Currently, the group serves Saddleback Memorial Medical Center (Laguna Hills), Orange Coast Memorial Medical Center, and Saddleback Memorial Medical Center (San Clemente).

Recognized for its strong commitment to clients, StatRad is looking forward to fostering a long-term relationship with South Coast Radiological Medical Group. “The goal is to deliver unmatched service with the added benefit of knowing that we’re committed to helping our partners create sustainable advantages,” explained Moock. In the teleradiology industry, it’s important to make life easier for radiology groups by forging deep partnerships and developing tailored solutions that deliver measurable results—and that’s part of the StatRad advantage.
